

Our Complete Collection Of Cornice, Wainscot, Coffered Ceilings, Columns And Flexible Mouldings

ELITE TRIM™ CORNICE MOULDINGS ARE IDEAL FOR NEW CONSTRUCTION AND PROFESSIONAL REMODELLING APPLICATIONS.

EliteTrim™ cornice mouldings offer the rich, carved detailing of expensive architectural wood and plaster mouldings at an affordable price. The intricacy of the detailed patterns embossed on the face is what distinguishes EliteTrim™ cornice mouldings from the products offered at big box stores and other retailers. The 5" is recommended for 8 foot ceilings, our 7" for 9-10 foot and 9" for ceiling heights of 10 to 12 feet.

THE BEAUTY OF NATURAL WOOD

The beauty of real wood mouldings is eternal, be it Poplar, Oak, Maple or Cherry. Although MDF is very flexible in its application, there are many instances when painting or faux finishing just won't cut it. Elite Mouldings recognizes this; and that is why we now offer our SM5 and SM7 lineup of MDF Crown Moulding styles in stain grade wood.

Poplar

Oak

Maple

WITH OVER 70 PATTERNS
TO CHOOSE FROM,
